Summary

Software Engineer with 5+ years of experience modernising enterprise web platforms using React, TypeScript and Next.js. Experienced in frontend architecture, platform modernisation, design systems, backend integration, and AI-assisted development.

Experience

Full-Stack Developer, University of Liverpool Nov 2024 – Present

- Modernised Teoreler by migrating a legacy MVC application to a decoupled React/Next.js architecture
- Introduced REST APIs separating frontend and computational services for independent development
- Implemented a NestJS gateway supporting authentication, API orchestration and asynchronous simulations
- Built a metadata-driven plugin architecture for configurable scientific workflows
- Established a reusable design system with 48+ components, accelerating feature delivery by 25%
- Improved responsiveness through asynchronous workflows and LTTB-based plot optimisation
- Reduced researcher onboarding time by 40% through accessible and intuitive user experiences

Associate Systems Analyst, NSEIT Jan 2022 – Jul 2023

- Delivered React applications for the NSE IFSC and Clearing platforms serving financial market participants
- Adapted a shared design language across products to deliver a consistent user experience
- Partnered with IT, Support and business teams on releases, hotfixes and feature delivery
- Supported AWS-to-on-prem infrastructure migration and resolved Sev1/2 production incidents
- Mentored junior engineers and conducted React and JavaScript technical interviews

Systems Engineer, TCS Jun 2019 – Jan 2022

- Integrated React and GraphQL interfaces into legacy insurance applications
- Investigated and resolved L2 production incidents for Tata AIG's enterprise insurance platform
- Supported UAT environments and collaborated with QA, architects and client teams during releases
- Delivered enterprise insurance solutions supporting underwriting and policy workflows

Skills

Languages: JavaScript, TypeScript, Python

Frontend: React, Next.js, Zustand, HTML5, CSS3, SASS

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL

Testing: Vitest, React Testing Library

Databases: PostgreSQL, MySQL, MongoDB, Redis

Platforms: Git, Docker, CI/CD, AWS

Architecture: Frontend Architecture, Design Systems, Component Libraries, Accessibility

AI: AI-assisted Development

Education

University of Liverpool – MSc in Advanced Computer Science, 2024

University of Mumbai – BEng in Information Technology, 2019
